We are located in the northern province of Tucumán, where dove flights will literally defy your imagination; you can shoot non-stop from dawn to dusk if that is what you are after. Great shooting is our priority, and we deliver it along with friendly service. Accommodations? You'll stay in a very charming, comfortable hotel chosen personally by our team. The property is well known for its great service and close proximity to our shooting locations.

But back to the value - the reason we can offer this trip at such a great rate is that we bundle everything together and that keeps our costs low. We include everything you need to have a great shooting holiday, all your meals and soft drinks, guided hunting (including 1500 shotgun shells), plus your gun rental and hunting fees. Everything is clean and tidy - and there are no hidden fees!

- A proven program operated by local outfitters with years of experience in the area. We will put you under the doves every single day.
- You are not paying for anything you don't need- this program is comfortable and friendly, but without the extra frills. The focus is on great shooting in the field and easy downtime when you are not.
- Lunch in the field assures a full day of hunting and no time lost driving to and from the lodge.
- Only self-sufficient game management program in the industry: we plant crops exclusively for doves, which provide constant and unlimited amounts of food for the birds.
- More than 120,000 acres of land means that you will shoot a challenging mix of scenarios, so you can enjoy variety and quality hunting year-round.
- Ideal for small groups - families, close friends, business groups.

## LOCATION

Tucumán Value Club is located in the province of the same name, in northern Argentina, in the town of Termas de Río Hondo. The driving time from Tucumán Airport (TUC) to the hotel is 1 hr. and 45 minutes by paved road or only 15 minutes from Río Hondo Airport (RHD).

Nicknamed "The Garden of the Republic", the province of Tucumán is one of the most productive agricultural areas in the country. In addition, its temperate weather and excellent roost conditions create a perfect storm to produce an overwhelming dove population that grows constantly, creating the best dove shooting in the world.

## GETTING THERE

To get to Tucumán there are daily direct flights from many U.S. or European cities to Buenos Aires (Ezeiza Intl. Airport – EZE). From EZE hunters will need to make a connection to RHD or TUC airport (both airports are 2 hr. flight) or transfer to the Domestic airport Jorge Newbery – AEP (40' to 1 hr. drive), and connect there to RHD or TUC.

Once at the hotel, you are conveniently close to terrific dove fields with drives on average no more than 40 minutes to the shooting fields.

## FACILITIES AND SERVICES

- Capacity: up to 14 hunters.
- Accommodations: based on double occupancy. You'll be staying on a fine local hotel, very close to the hunting fields.
- Typical Argentine dining with Argentina's famed beef, traditional Aasados (BBQs) and delicious desserts.
- Wi-Fi Internet access, Satellite telephone, and satellite TV.
- Maid and laundry service.
- Professional, experienced local hunting guides and field assistants.
- Gun rental, with a selection of 20 ga. semiautomatic Benelli shotguns.

## THE SHOOTING

There are roughly twenty-five shooting positions that are just a short drive away through the region's rich farmland. The overwhelming number of birds flying over our terrain throughout the day guarantees great opportunities for non-stop shooting, suitable for all skill levels. Beginners have an unparalleled opportunity to improve their shooting skills by targeting low-flying doves, while more experienced shooters will find higher, faster targets a challenge. And like elsewhere in Argentina where doves are abundant, there is no bag limit.

In addition to the acreage surrounding the lodge, we also have the exclusive rights to many of the most revered dove hunting properties in the province, in the highlands and plains areas. The options available, depending on the time of year:

- **Shot migration routes:** a point between the resting area and the feeding field.
- **Fields:** crops, such as soybeans, corn or sorghum (especially from March to May).
- **Food Batches:** Birds congregate to harvest large food batches. They are excellent hunting options at certain times of the year (March to July).
- **Waterholes:** These are excellent options to photograph, especially in summer (October to April).

In the field, you will be assigned a field assistant who will provide you with shells and refreshments, direct you to your shooting stand and serve as a loader should you wish. Assistants are equipped with radios for easy and fast communication and can quickly solve any small problem that might arise. You will be visited by your field guide many times throughout who will help you with any need, even giving you some tips on how to shoot particular shots if desired.

## THE DAILY ITINERARY

Morning will begin with a wake-up call, approximately an hour before departure time. Breakfast will be served shortly thereafter, then it is off to the vehicles for the shooting day. The morning shoot will begin upon arrival at the field. You will be met by your field assistant, and escorted to your shooting position.

Depending on the time of the year, you will shoot until noon each day, then enjoy an incredible lunch, shaded by a comfortable tent or unique hand-made shelter. After lunch, and a short siesta, the afternoon shooting begins at around 2 - 2:30, and continues until around 5:00pm, after which you will return to the hotel, followed by a delicious dinner and time to relax.
